Liz BC health - question after questioning
showed her my leg tattoo & similarity to her tattoo a wolf howling @ the Moon - my family / the environment protection messenger of love & tree of life - then working up to the fact that my fam didn't trust / card & witness by marriage attendance & then she asked "when did you get married" - so the question after questioning is a tactic my dad used - but in using he also didn't listen. and ofcourse this is how a therapist guards themselves - to also help - but the real help can only come from real friends, real mothers who care w/ out a need to trust, gardners, caretakers, lovers (true lovers)

Oh yeah told her about the bleach water and guards drinking from a seperate water supply.

and I'm pretty sure Dennis Becker got priority over me to God Sam
① why are you allowed to lie and further abuse trust
② Danger is more priority than savior (I guess if they don't want responsibility for suicide) still their actions fully cultivate suicidal thoughts (pro-death society stimulus)

BULLSHITTERS

"first we'll condemn you then we'll take you away from all you love and put you in a box up no escape - no contact, no way out
